Professional Experience

Luday AB   Sweden (Remote)
Web App Developer – Full Stack (Intern)   Feb, 2024 – Apr, 2024

I have experience utilizing React and Next.js for frontend development, alongside Python Flask for backend, across various projects (SAAS). Collaborating with teammates, we employed VS Code's Live Share feature to enhance productivity. Our primary objectives included crafting a social media management platform as an alternative to Crowdfire, and a family networking platform akin to Tinder.
• Coordinated with cross-functional teams to address critical bugs inherited from previous developers, showcasing strong problem-solving skills and fostering a collaborative environment for efficient issue resolution.
• Spearheaded the development of SAAS projects utilizing React, Next.js, and Python Flask, successfully delivering robust frontend and backend solutions.
• Resolved critical bugs inherited from previous developers, demonstrating strong problem-solving skills, and collaborated with senior developers to address complex issues, achieving a 95% bug-fix success rate.

Flamingo Footwear limited   Dhaka, Bangladesh
Web Developer – Full Stack   Jan, 2021 – Apr, 2021

Skilled in React.js, I develop UI components for global trade, optimize performance by 78%, and ensure seamless user experiences. Proficient in JavaScript, I design data models, handle front-end and back-end tasks, implement security measures, and integrate payment gateways for e-commerce.
• Ensure the responsiveness of websites across various devices and platforms.
• Implement security and data protection measures.
• Ensure seamless integration of user-facing elements with server-side logic.

Skills
